Customer Operations Analyst Intern

What you'll be doing

- Own the ongoing operations for a portfolio of customers (i.e rule building, process execution, reporting & dashboarding, and product support)
- Create automated reporting (financial, sales performance, incentive compensation) for customers to support process automation and improve business visibility.
- Support design projects including analysis, financial modelling, project planning, customer workshops and presentation/recommendation of findings.
- Implement new Forma.ai platform features within your customer portfolio to support continuous improvement & automation.
- Build strong working relationships with key customer stakeholders, ensuring our clients realize Forma.AI's full value

What we're looking for

- Strong analytical skills & problem-solving ability
- Project Management & Organisational skills
- Effective communication & ability to collaborate
- Takes initiatives and can work in unstructured environments
- Excited to learn & build
- Highly motivated & ability to work in team environment.
- **Don't** require coding experience.
